

"It's Gonna Explode!"

A science kit with jars of colored liquid sits in front of ARCHIE. KASEY picks up a jar of blue liquid.

KASEY

Ooh, a chemistry set. Do you know what you're doing?

Archie takes the jar from him and swirls it.

ARCHIE

Of course not. That's why it's called an experiment. Let's pour that chemical into this one, and then mix 'em together.

KASEY

Cool. We can be like mad scientists.

Archie does a low, evil laugh as he holds his jar still. Kasey pours in the other chemical. They set it on the table, and watch.

KASEY (cont'd)

Oooh, it's smokin'!

Archie picks up another bottle.

"It's Gonna Explode!" (2)

ARCHIE

This says "never mix with formaldehyde."

Mischief in their eyes...

KASEY

Let's do it!

They pour and watch the two liquids smoke. Then bubble. They laugh.

ARCHIE

It looks like it's gonna explode.

KASEY

Yeah. It might blow up.

Then, their smiles turn to *UH-OH!*"
Their eyes get big ... then!!!!

ARCHIE

I'm outta here!!

KASEY

Wait for me!!!

They run out.
